Keep Kids Entertained During the Coronavirus Crisis

Here are some tips on how to spend some quality time during the quarantine. How about trying them all out?

1. **Check out Mars:** Explore the surface of Mars with a digital 360° camera. Go online using your computer or phone and embark in this adventure around the universe.
2. **FaceTime family members:** FaceTime is another good way to connect with family and friends while practicing “social distancing.” Use it to check in on family members and to socialize, even if over the phone.

3. **Organize your school objects:** It's always good to organize your backpack and pencil case. Having all pens, pencils and colored pencils in one place helps you be more focused.

4. **Do some cleaning:** We know cleaning isn't exactly “fun,” but with everyone off from school and off from work, the house can get messy, and pretty quickly at that. Have a few minutes, even if it's just 15, each day to prioritize organization.

5. **Play cards:** How about playing UNO with your family... Any game you can think of using cards is fun!

6. **Learn how to play chess:** Every kid could benefit from learning the strategies of chess. There's even an app version!

7. **Make slime:** There's a bunch of different ways to make slime but if you're just getting started. How many colors can you think of for your smile?
